Clipboard InfoLoop™

SPRING CLIP AND ROLLER CLIP MODELS

Description

Contacta Clipboard InfoLoop™ provides induction loop assistance for hearing aid users in combination with a clip for paper or pad and a firm, flat surface for ease of writing.

The single clipboard unit incorporates microphone, amplifier, induction loop aerial and rechargeable battery system.

The Power Supply Unit connects to any convenient mains outlet to re-charge the Clipboard InfoLoop™.

The highly portable Clipboard InfoLoop™ features sophisticated electronic circuitry to ensure the best possible voice reproduction. Automatic standby mode conserves battery life

Applications

The innovative Contacta Clipboard InfoLoop™ extends the benefits of induction loop technology beyond the desk or counter. This hand-held unit may be used anywhere, inside or outside.

The electro-magnetic field extends to a maximum of 1.2m.

Operation

Clipboard InfoLoop™ is powered by a rechargeable battery that provides up to 7 hours use when fully charged. An on/off switch and visual indicators denoting power on, signal strength and battery life are mounted on the front edge of the unit.

Full operating instructions are supplied with the unit.

Supply

Clipboard InfoLoop™, supplied complete with Power Supply Unit, is available direct from Contacta Limited.

Technical support

Contacta offers comprehensive technical support for all its systems, including:

- Advice via telephone helpline, fax or email
- On-site visit by a Contacta Field Service Engineer
- Detailed installation and service manuals supplied with every system

Customers have access to continuous help and support, technical or administrative, through the Contacta Helpline.
