

Radio Frequency Repeater

RF-RP

Our Radio Frequency Repeater provides up to 300 metres in signal distance between a radio frequency systems' transmitter and its portable receivers, working on internationally compatible frequencies.

Contacta RF systems support 40 selectable channel groups to allow for a wide array of applications such as multi-language interpretation and tour guidance.

Designed for free-standing installations, the Repeater's compact and elegant housing means it can be placed anywhere. The device is powered using its provided portable USB power supply.

Applications

Ideal for situations where listeners require clear sound, tour guidance or interpretation:

- Museums
- Historical Sites
- Meeting Rooms
- Conferences
- Places of Worship
