

Thank you for purchasing Contacta's **Radio Frequency Small Boundary Microphone (RF-BM)**. This product is for use with the RF-TX1.

1 x RF-TX1

1 x RF-RX1

The **Radio Frequency Transmitter (RF-TX1)** is the transmission device. The **Radio Frequency Boundary Microphone (RF-BM)** clicks into the Mini XLR socket on the TX1. User 1 (or multiple users in a room based scenario) speak into the connected RF-BM microphone to send audio to the compatible receiver or multiple receivers.

For further instructions on the use of Radio Frequency products **please scan the QR Codes above to access the User Guides.**
